Fourth Edition. THE LATEST

In Brief.

National Associated Press to the Star.

BATAVIA, March 15.—Thomas Phillips, aged eighty years, son of Squire Thomas H. Phillips, near Nicholasville, was accidentally killed on Saturday while hauling logs.

The Telegraph Tangle.

National Associated Press to the Star.

New York, March 15.—An injunction has been obtained in Mississippi to restrain the W. U. Tel. Co. from interfering with the American Union Co. on all Railways in that State.

WASHINGTON NEWS.

Special to the Star.

WASHINGTON, D. C., March 15.—J. Henri Burch, a colored politician of Louisiana, testified before the Brooks Committee this morning as to the condition of his race in that State. Burch has been in State politics since 1865. He was a State Senator for six years, a member of the New Orleans Board of Education, and is now employed in the New Orleans Custom-house. He testified that under the present Democratic administration in the State his race is in a more prosperous condition than at any time since the war. The colored people left the State, he said, because they thought their votes were not counted, and other civil rights were denied them.

COLORED WOMAN'S RIGHTS.
He said further that in New Orleans there is an organization of five hundred colored women, with Mrs. Garrett at the head, which exercises a greater influence in politics than any other organization among the colored people.

These women, he says, follow the men to the polls and compel them to vote for the candidates of the organization.

CHARLEY CALLS ON JOHN.

General Charles Grosvenor, of Ohio, is here on political matters. He called last evening on Secretary Sherman, with whom he had a long talk on the subject nearest to both their hearts.

SMALL THE CONGRESSIONAL RECORD DIED?
National Associated Press to the Star.
WASHINGTON, March 15.—Public Printer De Fries has concluded to stop the publication of the Congressional Record unless a bill is passed to meet the deficiency in his office at the end of this week. It is very doubtful now when the bill now pending to meet this deficiency will be passed. Today, under the rule, States must be called for bills for reference, and after that motions to suspend the rules will be in order. As only two days in each month are now allowed for motions to suspend rules there is not much prospect of getting two-thirds of the House to set that order aside and take up the Deficiency Bill.

Springer gave notice last week that he would call up one of the contested election cases, Bradley vs. Simmons, on Tuesday and another, Carter vs. Graum, on Wednesday. As these are questions of the highest privilege, they will have effect to postpone action on the appropriation bill unless Springer in view of exigencies of the case shall allow them to go over to a future day. But even then there is no certainty of speedy action on the deficiency bill because several members want to make speeches. Hawley will have the floor for an hour when the bill is again taken up and the Printing Committee will want to be heard on the proposed amendment to change the form of appointing the Government Printer. Much time is expected to be consumed when the bill comes to be considered by items under five minutes rule.

PROSPECT OF THE APPROPRIATION BILLS.
Altogether, speedy action on the appropriation bills is not very flattering. The Indian Bill and Consular and Diplomatic Bill do not follow the Deficiency Bill. The Tariff Bill is out of the way as an independent proposition because it has been tacked on the Deficiency Bill. The Senate, having doubled the amount of the fortification bill, the House will be apt to make a strong fight against the increase. All of the heaviest appropriation bills are to be reported. Besides these three the House has before it a vast amount of business. There are in Committee of the Whole House one hundred and nine bills and propositions, on the House calendar thirty-two bills, and over two hundred and fifty bills on the private calendar. There are also on the table over six hundred bills from the Senate.

Some of these bills are of great importance, and members interested will make fight for them, even as against appropriation bills. Among the most important bills in Committee of the Whole are the funding bill, bill to repeal taxes on leaf tobacco in the hands of producers, bill to pension soldiers of the Mexican War, several small bills relating to coinage, and a large number for the construction of public buildings in different parts of the country.

On the House calendar is the bill for the relief of General Fitz John Porter, bills relating to Interstate commerce, and other important measures. Besides it is not unlikely that in deference to the sentiment of the House, the Committee of Ways and Means will be compelled to reverse its action and report some tariff legislation relating especially to paper, sugar and salt.

Under rules precedence must be given to the committee to-day to make a motion to suspend the rules. If Committees have nothing to ask for Weaver will make another effort to catch the Speaker's eye, and if he fails again on this occasion he will have to possess his soul in patience until the first Monday in May.

ANOTHER INDIAN DELEGATION.
A delegation of nine Chippewa Chiefs, in charge of Isaac McMahon, agent, arrived here last night. They have been ordered here by the Interior Department to aid in securing necessary legislation and to allow them to state certain grievances they have against the Government.

Stabbing Affray Between Uncle Sam's Soldiers.

Special to the Star.

LITTLE ROCK, ARK., March 15.—Advice from Morrilton states that yesterday a negro man by the name of Tode Neely became exasperated at his wife upon the question of bedding the children and she threw a shovelful of hot embers in his face. TEAR DOWN CHURCH TROUBLES.

DES MOINES, IA., March 15.—Two of the Howrie family, belonging to the Tear Down Church vendetta in Warren County, were arrested yesterday. The old feud have again broken out, and there is trouble ahead.

Every stitch of her clothing was burned off, and she was one mass of burned flesh. Her clothing caught fire from the campfire. She had parted from her husband at Wheatland last fall, and was traveling with a young man, name unknown. He skipped out. The woman will die from her injuries.

A VINCENNES VICTIM.

VINCENNES, IND., March 15.—At the house of C. M. Allen, Jr., to-day at noon Dick Greenhow, in a fit of delirium, cut his throat. The wound is probably not fatal. Mrs. C. M. Baker died at 4 a. m. to-day.

The thieves belong to a local gang. Ross & Barnes, keepers of a Third-avenue saloon, where the headquarters of the gang was made, are under arrest.

TERRIBLE DEATH OF A MINER.

LEAVENWORTH, KS., March 15.—F. Burvill, a miner, was buried beneath a mass of falling stone in a coal shaft yesterday, the timbers having given away. His voice could be heard at first by a party of comrades engaged in the work of rescuing, but it ceased before he was reached and at the end of an hour and a half he was found dead. He leaves a family. Twenty other miners employed with him barely escaped.

WHY JACK EPPS WAS WHIPPED.

RICHMOND, VA., March 15.—Jack Epps, a white man, was today whipped at Prince George Court-house, for getting a coffin under false pretenses. It seems that Epps represented to a dealer at that place that one of his relatives was dead and obtained the coffin, promising payment therefor, but his story turned out to be false.

SHOCKING WIFE MURDER.

WAYNESVILLE, O., March 15.—A visitor called at the house of Gideon B. Carson, in the outskirts of the village, last evening, and found Carson in a bed in a stupor condition and his wife lying dead beside him. His poor victim was stark naked and only covered by the mattress being rudely drawn over her body. Her face was mashed and covered with blood, and a bowl was found in which were pieces of bones, clotted blood and shreds of flesh. Carson, who is sixty years old, was locked up, apparently too drunk to make any explanation. His wife was forty-five years of age.

PACIFIC MAIL STEAMER FIRE.

SAN FRANCISCO, March 15.—The fire which broke out about half-past eight o'clock last night in the Pacific Mail Steamer, City of Sydney, was extinguished before midnight by flooding the forward compartments. The vessel sustained comparatively little injury, the damage being confined to the cargo and she will be ready to depart on her voyage to Honolulu and Sydney in ten days.

LOST ON THE LAKE.

PENAWATER, MICH., March 15.—Die tug boat Geo. L. Lamont, capsized on Lake Michigan yesterday afternoon, two miles from her during a snow storm. Capt. Chas. Lamont, his son George and a man named Palmer Hill, were on board and all supposed to be lost.

SUICIDE OF A QUINCY YOUTH.

DETROIT, March 15.—Elmer Fitch, a youth of seventeen, hung himself at Quincy yesterday afternoon.

HE ALMOST GOT IT.

rustus Carey, an old bachelor of this place, who has been seeking perpetual motion for many years, died suddenly yesterday afternoon, just as he thought the motion was almost perfected.

SUNDAY HUNTER SHOT.

GUYON FISHER, a wealthy miller of Battle Creek, was found dead in the woods in Kalamazoo County yesterday. He accidentally shot himself while hunting.

Pennsylvania Puddlers.

Seven Thousand Iron-workers Out of Employment.

An Important Strike Inaugu- rated To-day.

National Associated Press to the Star.

HARRISBURG, PA., March 15.—The puddlers employed at the Lochiel, Paxton, Baileys, Fairview & Central Iron Works in this city and at the Western Furnace at Duncannon, have struck for an advance in their wages of from five to six dollars per ton.

The proprietors offer \$5.50, but their offer is refused. This strike is the result of an agreement among the puddlers.

A conference of puddlers from all the mills was held at Duncannon on Saturday, at which the demands were agreed upon. The puddlers in the mills from Johnstown to Columbia, about forty establishments in all, are on a strike.

In this vicinity about six hundred workmen, puddlers and helpers, are idle, but a protracted strike will throw an immense number of others out of employment who are working on manufactured iron.

It is said that altogether there are 7,000 men idle between Johnstown and Columbia. There is no disturbance, and everything is quiet thus far.

The mill owners say that they can not afford to give more than \$5.50 for puddling owing to the risky condition of the iron market, a crash in prices being momentarily expected.

GLINTS FROM GOTHAM.

Stopped By a Whale---Ben. Butler--- Salvation Army---Sweet Bye and Bye, Etc.

THERE SHE SPOOLS.

Special to the Star.

New York, March 15.—The steamer Isaac Bell, while on her passage yesterday from Norfolk, Va., to New York, was obliged to come to a full stop to get out of the way of a large whale, which lay directly across the vessel's bows. He did not evince the slightest alarm, but lay like a huge log on the water, with forty feet of his back exposed.

LECTURE BY BEN. BUTLER.

National Associated Press to the Star.

New York, March 15.—General Butler lectured last evening at Steinway Hall before an audience of about a thousand persons, for the benefit of the suffering poor in Ireland. Charles A. Dana presided and introduced the lecturer. About \$500 clear of expense was made by the lecture.

THE "SWEET BY-AND-BY."

At the conclusion of the meeting, and while the "Army" was leaving, the orchestra struck up "Sweet By-and-by." A sea captain who was sitting up in front now gave the leader of the Band a five-dollar bill and requested him to play it over again. The request was complied with.

IN AID OF IRELAND.

The benefits at the theaters and other places of amusement on St. Patrick's day for the poor of Ireland will be very numerous and most attractive in this city and vicinity, and many thousands of dollars will be raised for the famine fund. Every day some detail of fresh interest is added to the programme of performances already arranged, the newest being the assignment by General Schofield of the famous band of West Point to participate in Gilmore's Great Anvil Chorus at Madison Square Garden.

SALVATION ARMY OPEN THE CAMPAIGN.

The announcement that the Salvation Army would conduct services at Haverly's Theater last evening attracted an immense crowd, and long before the doors were opened crowds lined the sidewalks for blocks waiting to obtain admission. At 7 o'clock Commissioner Bailton with five of his female corps, mounted the stage and opened services with prayer. The Commissioner was dressed in a suit of blue with gold lace around his coat. His assistants were also dressed in blue and wore long scarves. They wore the regulation caps of the army with red bands and the words "Salvation Army" around them.

The services throughout consisted of prayers and singing of hymns. The audience was unusually mixed and consisted of business men and clerks, sporting men and prize-fighters. Among the latter were noticed Dooney Harris and Barney Aaron. The theatrical profession was but slightly represented. Pat Rooney being the only noticeable present. The Band refused to take money for their service, and no collection was taken up.

FAILURE OF AMERMAN & CO.

The failure of J. W. Amerman & Co., stock brokers, Broad street, is announced on the streets to-day. The firm were interested in the celebrated Nashville & Chattanooga pool, and the break in shares last evening from 128 to 83, was the main cause of the suspension. Amount of liabilities estimated at \$50,000.

LOUISVILLE, March 15.—A Courier-Journal New York special to-day says the Newcomb-Cole Conference still continue and that there are railroad combinations under negotiation that when consummated will surpass in magnitude anything yet done.

It is almost certain that the Georgia Western will now be built, and that at once. Newcomb will come West in about a week.

WORKING WORLD.

A GREAT STRIKE IMMINENT.

National Associated Press to the Star.

New York, March 15.—The carpenters, bricklayers and several other trade unions are now thoroughly organized, and a general move for an advance of wages will be made by the 1st of April. The furniture-makers, who have been on a strike for four weeks, are still confident of gaining the advance demanded, but it is probable that a compromise will be made in that branch of the trade next week. From the present outlook it appears almost certain that not less than ten thousand workmen will be out on a strike in this city within three or four days, and should the furniture-makers fail to effect a compromise at least two thousand more will be added to that number.
